## SKILLS

Linux

Docker

Ansible

Python

Flask

Nutanix

VMware

Proxmox

Cisco

pfSense

Fortinet

Nginx

Graylog

Grafana

PRTG

GLPI

Git

CI/CD

Ollama

Open WebUI

ComfyUI

Vulkan

Veeam

phpIPAM

## LANGUAGES

French — Native  
English — TOEIC 805 (C1)

## INTERESTS

- **Sport shooting** — French speed champion 2017, vice-champion 2023, multiple national team titles.
- **3D printing / CAD** — Functional parts, CoCr prototyping, jewelry.
- **Bass guitar** — Self-taught, 2 years.

## PROFILE

Engineering apprentice at ISEN, currently at Oxeegen France. Specialized in **Cloud, DevOps, automation & local AI**. I design reliable, secure, maintainable systems with a production approach: documentation, monitoring, hardening, and operations automation. Dual background in networks/systems and digital engineering bridging traditional infrastructure and modern cloud-native practices.

## EXPERIENCE

### Oxeegen France — Network & Systems Technician (Apprenticeship)

Vitrolles · Sep 2025 → Present  
*Industrial fluid systems engineering for pharma, cosmetics & chemical industries.*

- Infrastructure MCO, network & systems monitoring, incident response.
- Automation with Python & Bash, deployment standardization (Ansible).
- Security projects: network segmentation, firewall policies, access control hardening.
- Monitoring dashboards (PRTG, Graylog), runbooks, technical documentation.

### Itinsell Cloud — Network & Systems Apprentice

La Ciotat · Apr 2024 → Sep 2025  
*Managed hosting & cloud services provider (IaaS, private cloud, backup).*

- Designed & deployed a **web bastion** (Flask, Nginx, OAuth) centralizing infrastructure tools.
- Automated VM provisioning on Nutanix AHV (GLPI + Prism API + Ansible).
- Administered pfSense (FW, VPN, NAT), Fortinet, AHV/ESX virtualization.
- Operated Hostbill, PRTG, GLPI, Graylog, phpIPAM; managed S3 & backup (HYCU, Veeam).
- Conducted HDS/ISO 27001 feasibility study for Nextcloud offering.

### Starbucks SSP — Barista (Temporary)

Marseille · Jul 2022 → Mar 2023  

- Customer service, food safety standards, teamwork under pressure in high-volume environment.

### Fatec Group — IT Internship

Marseille · Jul 2019  

- Refurbishment of IT equipment fleet, workstation setup, hardware diagnostics & repairs.

## EDUCATION

### ISEN Marseille

2025 → 2028  
Master-level engineering — Cloud, cybersecurity, distributed systems, software engineering.

### AMU — BUT Networks & Telecoms

2022 → 2025  
Cybersecurity track, jury commendations. VP Student Council 2023-24.

### INSA Lyon — FIMI

2021 → 2022  
Engineering foundation year: math, physics, CS, collaborative projects.

### Bac STI2D (SIN) — High Honors

Lycée St-Louis · 2021  
Information systems & digital track.

## CERTIFICATIONS

- **CCNP Core Networking** — Cisco pro-level routing & switching
- **CyberOps Associate** — SOC, alert analysis, operational security
- **AWS Cloud Foundations** — AWS services, security, architecture
- **Stormshield CSNE** — Firewall expertise: design, security
- **Stormshield CSNA** — Network & security administration
- **PIX** — Digital skills certification
- **SecNum (ANSSI)** — Cybersecurity awareness MOOC
- **BIA** — Aeronautical initiation certificate

## KEY PROJECTS

- **Nutanix VM Factory** — Automated VM provisioning: GLPI ticketing, Prism API, Ansible playbooks, Flask dashboard for request tracking.
- **DevOps Web Bastion** — Internal secure portal (Flask + Nginx) centralizing infrastructure tools, OAuth2 SSO, role-based access control.
- **Local AI Lab** — Self-hosted stack: Open WebUI + Ollama, ComfyUI pipelines, LM Studio with Vulkan backend on non-CUDA GPUs, OpenClaw agents.
- **Administration Squad** — RCON + Discord bot for game server management, real-time moderation, smart logging, automated incident response.
