SKILLS

Linux

Docker

Ansible

Python

Flask

Nutanix

VMware

Proxmox

Cisco

pfSense

Fortinet

Nginx

Graylog

Grafana

PRTG

GLPI

Git

CI/CD

Ollama

Open WebUI

ComfyUI

Vulkan

Veeam

phpIPAM

LANGUAGES

French — Native
English — TOEIC 805 (C1)

INTERESTS

- **Sport shooting** — French speed champion 2017, vice-champion 2023, multiple team titles since 2012.
- **3D printing / CAD** — Functional parts, CoCr & plastic prototyping, jewelry.
- **Bass guitar** — Self-taught.

PROFILE

Engineering apprentice at ISEN currently at Oxeegen France. Specialized in **Cloud, DevOps, automation & local AI**. I design reliable, secure, maintainable systems with a production approach: monitoring, hardening, automation and documentation. Dual networks/systems + digital engineering background bridging traditional infrastructure and modern cloud-native practices.

EXPERIENCE

Oxeegen France — Network & Systems Technician (Apprenticeship)

Vitrolles · Sep 2025 → Present
Industrial fluid systems engineering — pharma, cosmetics & chemical industries.

- Infrastructure MCO: network & systems monitoring, incident response, operational maintenance.
- Task automation (Python/Bash), deployment standardization with Ansible playbooks.
- Security projects: network segmentation, firewall policy management, access control hardening.
- Dashboards (PRTG, Graylog), runbooks, technical documentation, knowledge transfer.

Itinsell Cloud — Network & Systems Apprentice

La Ciotat · Apr 2024 → Sep 2025
Managed hosting & cloud services provider — IaaS, private cloud, backup solutions.

- Designed & deployed internal **web bastion** (Flask + Nginx + OAuth2) centralizing infra tools.
- Automated VM provisioning on Nutanix AHV using GLPI, Prism API, and Ansible.
- Administered pfSense (FW/VPN/NAT), Fortinet, AHV/ESX virtualization, S3 storage & HYCU/Veeam backup.
- Operated Hostbill, PRTG, Grafana, GLPI, Graylog, phpIPAM; conducted HDS/ISO 27001 feasibility study.

Starbucks SSP — Barista (Temporary)

Marseille · Jul 2022 → Mar 2023
• Customer service & food safety compliance in high-volume environment, teamwork under pressure.

Fatec Group — IT Internship

Marseille · Jul 2019
• Refurbished company IT fleet: workstation installation, hardware diagnostics & repairs.

EDUCATION

ISEN Marseille

2025 → 2028
Master-level engineering — Cloud, cybersecurity, distributed systems, software engineering.

INSA Lyon — FIMI

2021 → 2022
Engineering foundation year: mathematics, physics, CS, collaborative projects.

AMU — BUT Networks & Telecoms

2022 → 2025
Cybersecurity track, jury commendations. VP Student Council 2023-2024.

Bac STI2D (SIN) — High Honors

Lycée St-Louis · 2021
Information systems & digital technology track.

CERTIFICATIONS

- **Cisco CCNP** — Advanced routing & switching
- **Cisco CyberOps Associate** — SOC operations
- **AWS Cloud Foundations** — AWS services & architecture
- **Stormshield CSNE** — Firewall expertise
- **Stormshield CSNA** — Network security administration
- **PIX** — Digital skills certification
- **SecNum (ANSSI)** — Cybersecurity awareness
- **BIA** — Aeronautical initiation certificate

KEY PROJECTS

- **Nutanix VM Factory** — Automated VM provisioning: GLPI ticketing + Prism API + Ansible playbooks + Flask dashboard.
- **DevOps Web Bastion** — Internal secure portal (Flask + Nginx + OAuth2) with SSO, RBAC, centralized infra tooling.
- **Local AI Lab** — Self-hosted stack: Open WebUI + Ollama, ComfyUI pipelines, LM Studio/Vulkan, OpenClaw agents.
- **Administration Squad** — RCON + Discord bot: game server management, real-time moderation, smart logging.
